

Town of Plum Lake

Vilas County, Wisconsin

March 23, 2026

NEWS RELEASE

Seasonal Weight Restrictions

Pursuant to §349.16 of the Wisconsin State Statutes, the Town of Plum Lake will be implementing temporary seasonal weight restrictions on designated Town roads, effective **Friday, March 27, 2026, at 8:00 A.M.**

These restrictions are necessary to protect road infrastructure during the spring thaw period, when roadbeds are particularly susceptible to damage.

Weight limits are as follows:

6 tons per axle, maximum 18 tons gross

These restrictions apply to Town of Plum Lake roads only. County Trunk Highways, State Highways, and other municipal roads are regulated by their respective jurisdictions.

Special exceptions may be granted on a case-by-case basis through the issuance of a single-trip or multi-trip permit. Requests for permits or questions regarding specific road restrictions may be directed to the Town. These restrictions will remain in place until road conditions have stabilized and the frost has dissipated.

Notice will be provided when restrictions are lifted.

Thank you for your cooperation:
